Wild Horse and Burro Corrals Demolish and Restore

Need

The old Wild Horse and Burro Corrals, located nine miles east of Kingman, Arizona, on U.S. Highway 66, are managed by the Bureau of Land Management's (BLM) Kingman Field Office. This project will demolish, remove, and dispose of all above and below ground assets, remove and dispose of manure piles, and disc and seed all disturbed land within the site boundary. The site is under lease to the BLM from the State of Arizona. The lease termination date is approaching, and the lease agreement requires restoration to natural conditions when the lease is terminated.

Recovery Act Funding

This project will be accomplished in two phases. The first competitive contract was awarded to Red J Environmental for \$138,659.20 using Arizona American Recovery and Reinvestment Act (ARRA) funds. Award of the second contract is anticipated by the end of April.

Benefits

This project reduces the federal property asset inventory, annual maintenance costs and leasing fees. The site is to be returned to the Arizona State Land Department.

More Information

For more information on this BLM-Arizona ARRA project, contact, Don McClure, Assistant Field Manager, at 928-718-3700 or Don_McClure@blm.gov; or Britt Bowen, District Engineer, at 928-505-1305 or Britt_Bowen@blm.gov or Linda Johnson, AZ ARRA Coordinator at 602-417-9576 or linda_johnson@blm.gov.
